

CASE STUDY

INDUSTRY: AUTOMOTIVE

CUSTOMER: Yanfeng Visteon Automotive Trim Systems Co., Ltd

Visteon®

LOCATION: Shanghai, China

SCOPE OF WORK: Armstrong International engineered and installed one Flo-Rite-Temp® (Model 8120) instantaneous water heater to supply hot water for gang showers, with maximum capacity of 33 ton/hr.

Armstrong engineered and installed a 40 M3 hot water tank to help bumper the extra-large hot water demand during peak use.

The mix of Flo-Rite-Temp® instantaneous water heater and hot water tank helps accommodate both peak demand and low demand, while controlling the steam consumption more efficiently during peak time.

BENEFITS: After years of experience with Armstrong's water heaters, the user is impressed by the ease of use and low maintenance features offered by Flo-Rite-Temp® instantaneous water heaters.
